Cattle Supplier Affidavit

As a supplier of quality feeder cattle to the Swift & Company Natural Beef Program, I agree to signing this affidavit that the following management protocols outlined below have been adhered to:

- ✍ By following good animal husbandry practices, all animals have been treated according to humane handling requirements.
- ✍ Cattle have been fed a 100% vegetarian diet – Never fed any meat of animal by-products.
- ✍ All cattle are born and raised in the United States.
- ✍ Any cattle receiving treatment with therapeutic antibiotics have been removed of identified with an ear notch, ear tag and/or any other approved method. Explain method used: _____

Cattle supplied to Swift Natural Beef Program are PROHIBIT FROM EVER receiving the following:

- ✍ Sub therapeutic antibiotics (examples, but not limited to: Aureomycin and Terramycin).
- ✍ Ionophores (examples, but not limited to: Bovatec and Rumensin).
- ✍ Coccidiostats (examples but not limited to: Decoxx, Bovatec and Rumensin).
- ✍ Growth performance hormones, supplemental hormones and steroids.
- ✍ Feeds or supplements containing any fish, animal or meat by-products (examples, but not limited to: proteins, vitamins, minerals or milk replacers).
- ✍ Fecal material, garbage, processed food waste or raised on pastures that have been grown with human sewage waste.

Swift & Company reserves the right to modify these protocols at any time they see fit to protect the quality of the product being produced. Swift & Company strongly recommends an aggressive health program that includes vaccinating against clostridial and respiratory diseases, controlling internal and external parasites and a well balanced vitamin and mineral program that enhances the immune system.
